Fiesta™

**Description** 6-Person Platinum™ soaker and lounge.

**Specifications** 9.5'L x 8'8"W x 6'9"H

Your own private oasis. Have you ever noticed how the nature of a party depends upon whom you invite? The new Fiesta™ is very much like that. For the purist, it's a serene, relaxing getaway; a place to while away the midday heat with a cool beverage in hand and a few close friends for lively conversation. For parents, the Fiesta™ offers a contained perimeter for the younger set to safely splash and play. Set a group of teenagers loose, and you're likely to have a rather raucous affair. With each group, the nature of the party changes and the Fiesta™ is pleased to oblige. This versatile, low-profile soaker, splash zone and lounge can be used as a stand-alone item, or integrated into an aquapark in multiple configurations. Bridge two larger items, or connect as an accessory. Attaches on two sides using Interloc™ system. Suitable for up to six people.

## Fiesta™ Technical Features

### **Duratex™**

**Commercial grade fabric reinforced PVC material.**

Ideally suited for watersports, Duratex™ material is the finest, commercial grade fabric reinforced PVC available. Each Aquaglide Platinum item uses Duratex™ material for maximum strength and durability. The Fiesta™ incorporates 1000d fabric fused with layers of 28 oz PVC.

### **UP Grip™**

**Incorporates convenient climbing handles.**

Convenient climbing handles allow for boarding and/or climbing while staying out of the way for other activities. The Fiesta™ provides a wide assortment of soft, yet durable handles for boarding and stability while rocking.

### **Interloc™**

**Heavy duty stainless fittings and convenient Interloc straps for modular use.**

Aquaglide Platinum items connect to one another using the Interloc™ system. Soft webbing offers some flexibility, while remaining tough enough for years of service.

Only Interloc™ blends the convenience of a cinch with the security of a locking connection.

### **3 Year**

**Limited Warranty against any and all manufacturing defects.**

Each Aquaglide Platinum™ item offers a warranty covering any and all manufacturing defects for an extended period of time. The Fiesta™ includes a 3 Year warranty for recreational use, a 1 year warranty for commercial use.

### **UV Block™**

**Materials specially treated for high resistance to the sun's damaging rays.**

Each Aquaglide Platinum item is treated with UV Block™, the highest grade 3-year UV coating available.

While we recommend periodic maintenance with additional UV coatings, there is no substitute for having UV Block™ incorporated into the material right from the start.

UV Block™, for years of trouble-free use.

Fiesta™ (continued)

## **RF Weld™**

**Radio frequency welded seams for high quality and outstanding durability.**

'RF' or Radio Frequency Welding is the process used to fuse DuraTex™ material seams for years of trouble-free use. RF welding produces clean, strong seams with no unsightly glue marks or splits.

## **Fiesta™ Functional Features**

## **Soak**

**Incorporates a soaking feature.**

Play, splash or lounge in this uniquely contained soaker area. Perfect for younger children, or as a secluded getaway away from the crowd.
